Wired network communications	Yes – using CADD®-Solis MSS	Yes – using CADD®-Solis MSS

Programming Details

Specifications	CADD®-Solis VIP Pump Model 2120	CADD®-Solis Pain Management Pump Model 2110
Protocol Library	<ul style="list-style-type: none"> Protocol Library developed, edited on the PC, stored in a database on either the PC or network server. Stores up to 500 therapy/qualifier/drug protocols Libraries (or single protocols) are transferred onto the pump via USB-mini USB connection 	<ul style="list-style-type: none"> Protocol Library developed, edited on the PC, stored in a database on either the PC or network server. Stores up to 500 therapy/qualifier/drug protocols Libraries are transferred onto the pump via USB-mini USB connection
Programming Units	mL (all delivery modes) mL, mg, mcg (PCA only)	mL, mg, mcg
Reservoir Volume Limits	1.0 to 9,999 mL	1.0 to 9,999 mL
Titration	Available when pump stopped with defined security code, within defined hard limits.	Available when pump running or stopped with defined security code or key, within defined hard limits
Programmed Intermittent Bolus (PIB)	N/A	Available
Delayed Start	All (except Intermittent delivery mode) Up to (96 hours)	N/A
KVO Rates	PCA Mode Only: 0.1 mL/hr – only when Delivery Limit reached	0.1 mL/hr – only when Delivery Limit reached
Alarm Help Screens	Text, images and customizable support message	Text, images and customizable support message
Reports	<ul style="list-style-type: none"> Total Given (not available for PCA) Delivery History and Pie Chart Delivery Log Event Log Protocol Library Summary Device Information <p>PCA Mode includes five of the above and two additional:</p> <ul style="list-style-type: none"> Given and PCA Dose Counters PCA Dose Graph 	<ul style="list-style-type: none"> Given and PCA Dose Counters PCA Dose Graph Delivery History and Pie Chart Delivery Log Event Log Protocol Library Summary Device Information <p>PIB Mode includes all of the above and three additional:</p> <ul style="list-style-type: none"> Intermittent Bolus Status Intermittent Bolus Graph PCEA and Intermittent Graph
Event log	5000 events	5000 events
Alarm Volume and Sound Theme	Adjustable on pump (no code required)	Adjustable on pump (code required)
Pump Alarm/messages (Alarm priority and total number of alarms affiliated with each priority)	<ul style="list-style-type: none"> High Priority: 19 Medium Priority: 23 Low Priority: 10 Informational: 23 	<ul style="list-style-type: none"> High Priority: 20 Medium Priority: 19 Low Priority: 8 Informational: 23
High Pressure Alarm threshold	18 ± 9 psi	18 ± 9 psi
Downstream Occlusion sensitivity	Customizable on pump per Protocol or Therapy (in Advanced Tasks)	Customizable per Protocol (in the MSS only)
